

# MultiJoin for StarLeaf Room for Poly

**MultiJoin is a StarLeaf interoperability feature that allows you to join any meeting from your StarLeaf Room for Poly with just one touch.**

Easily join meetings on different meeting services from your StarLeaf Room for Poly without the need for complex dial-in codes.

## StarLeaf MultiJoin works with:

- Zoom
- Webex
- Microsoft Teams (via Poly RealConnect)
- BlueJeans
- Microsoft Skype for Business
- Pexip

MultiJoin is available to StarLeaf customers with an Enterprise Room Subscription.

MultiJoin for StarLeaf Room for Poly supports joining Microsoft Teams meetings via the Poly RealConnect service (and other Microsoft CVI partners). Poly RealConnect is available from your Poly reseller.

StarLeaf Room for Poly also allows you to join any third party video meeting from your own laptop using device mode.
