

5 reasons to choose StarLeaf for MDT rooms

1 Enhance care

StarLeaf offers proven MDT room solutions to help NHS trusts bring experts from different organisations together, use specialists' time more efficiently and achieve the best patient outcomes.

2 Work more flexibly

Academic, health and social care professionals can join StarLeaf MDT meetings from different meeting platforms with one touch and no need for complex dial-in codes. StarLeaf easily integrates with Zoom, Cisco, Lifesize, Microsoft, Google Meet and Poly, and remote participants can be dialled into meetings from your StarLeaf MDT room when needed, or join in one click from their computer or mobile device.

3 High quality and performance

StarLeaf video conferencing is built from the ground up to provide MDT groups with a premium quality experience, including HD video and imaging, clear and consistent audio quality, and class-leading reliability.

4 Stay connected and secure

StarLeaf offers an industry-leading 99.999% uptime guarantee, so your MDT sessions won't be interrupted by unplanned outages. StarLeaf is ISO/IEC 27001 certified and hosted on the HSCN network, making sure sensitive patient data stays private.

5 Choose a proven provider

Over 50% of NHS trusts in England already put StarLeaf video conferencing at the heart of their virtual healthcare ecosystem, including for video meetings and remote patient consultations as well in MDT rooms.

"I think as a videoconferencing service it's second to none, and I would thoroughly recommend it."

Tesh Chudasama,
Head of Digital Learning, Mid and South Essex NHS Foundation Trust

"StarLeaf was the only MDT room solution that ticked all the boxes. Our trust holds dozens of MDT meetings every week, and thanks to StarLeaf, clinicians and specialists from all our different locations can share their expertise easily and securely."

Simon Fishpool,
Audio Visual Support Team Leader,
Cambridge University Hospitals NHS Foundation Trust

The StarLeaf virtual healthcare ecosystem gives you access to secure video-based solutions that are purpose-built to meet the needs of NHS providers. From Flabba for a complete remote care workflow solution, to Poly for best-of-breed MDT room systems and Sign Solutions for remote access to BSL interpreters.
